

## Plasmapp Co., Ltd.

CEO	Lim You Bong	Phone	+82-55-546-0977
E-mail	jiko@plasmapp.co.kr		
Address	83, Jukdong-ro, Yuseong-gu, Daejeon, Korea		
major business	Plasma Sterilizer&Pouch for Medical Devices, Plasma System for Industry		

Plasmapp Co., Ltd. is an innovative corporation which specializes in the manufacturing of products with plasma technology such, as plasma sterilizers for medical applications and plasma surface treatment systems for industrial uses.

### Products

STERLINK&STERPACK

**Use** Medical devices and pouch system  
**Description** Plasma sterilization system for the rapid sterilization of medical devices

LJPS(Linear Jet Plasma Source)

**Use** Plasma System for Industry  
**Description** Application of general industrial plasma treatment processes, such as for a secondary battery

CPS(Cracking Plasma Source)

**Use** Plasma System for Farming  
**Description** Plasma processing system to improve the storage stability of agricultural products

### Technical Capacity

#### » Fast Plasma Sterilizer using Pouch Technology

Wholly new pouch technology for fast low-temperature plasma sterilization  
All needs are satisfied with sterilization packaging pouch technology

#### » Stable Plasma Treatment using LJPS Technology

Enhancement adhesion strength for rechargeable batteries and composite materials  
Stable plasma discharge and surface treatments  
Plasma discharge image depending on the process gas flow
