

## SeoKwangI&N Co., Ltd

CEO	OH Kwang Jin	Phone	+82-61-287-8992
E-mail	kjoh@seokwanginc.com		
Address	14, Pyeonghwa-ro, Mokpo-si, Jeollanam-do, Republic of Korea		
major business	Development of communication equipment technology including radar system construction, radar signal transmission waveguide and radar display Console		

SeoKwangI&N Co., Ltd. is an information and communication technology company that develops special purpose information and communication work such as radar system construction and installation of U/VHF communication equipment and Micro Wave transmission equipment. In addition, research and development is underway for waveguides, radar displays Console, and LED underwater fishing light.

### Products

**Use** Waveguide&Waveguide Accessory  
**Description** Frequency transfer waveguide and accessories in the 7.05 to 10 GHz band

**Use** IEC 60945 Radar Display Console Unit  
**Description** 560mm×1130mm×662mm(W×H×D)/31 kg  
Raw Material: Aluminum  
Material/Standard: KSD6701 A6061P-T6

**Use** Internal and external pressure control and heat dissipation/waterproof LED underwater catchment light device  
**Description** IP67-certified LED underwater fishing light that effectively responds to light-catching fish species

### Technical Capacity

#### » X-band waveguide

X-band frequency transmissionline  
Waveguide of WR112 standard

#### » Radar Display Console

Radar console in accordance with IEC 60945 standard

#### » Underwater drop and lifting system

Direction and inclination control  
Identify the target depth set depth

#### » integrated digital video recorder

Integrated Digital Video Recorder and Display  
Remote monitoring using wireless network
