

## ICD Co., Ltd.

CEO	Lee Seung Ho	Phone	+82-31-290-3400
E-mail	002615@icd.co.kr		
Address	274, Manse-ro, Daedeok-myeon, Anseong-si, Gyeonggi-do, 17542, Korea		
major business	Equipment business, Component business, Health and medical business		

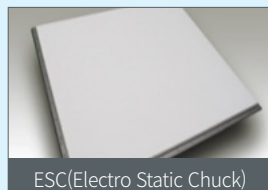

We are expanding our field of business with equipment, parts, health-care as a major business. As a Equipment business, based on vacuum technique, We are producing core equipment of pre step, plasma, AMOLED, LTPS-LCD, TFT-LD, O-TFT. As a parts business, based on manufacturing technique of Mems, we are producing ESC, HVDC, EPD, plasma coating, surface treatment. Also, constant exertions are in progress to get through to plasma medicine, bio marker with bio-friendly technology assimilated with equipment business and component business technology.

### Products

**Use** Dry etching equipment for flat panel display such as high resolution/high quality of OLED and LTPS LCD

**Description** The equipment for manufacturing TFT devices by plasma in a high vacuum environment

**Use** The core components of HDP Dry Etcher

**Description** Core parts that fix large-area glass substrates and control temperature in FPD(AMOLED, LCD)

**Use** Cleansing and Moisturizing of hand and skin

**Description** Cleansing hand safely as it contains Radical water more than 90%, mild and harmless new material instead of alcohol

### Technical Capacity

#### » Development of OLED/LCD process

The operational technology for high-quality OLED/LCD with mass production

#### » Development of core components for dry etcher

A technology that fixes the inside of the substrate so that it does not move and controls the temperature as a key part of dry etcher

#### » Development of cosmetics with Radical Water

Radical Water that is registered in ICID makes clean and healthy skin

Helping to make skin clean safely by active ingredient of harmless Radical Water as it reacts with toxic substance

#### » Development of bio-plasma medical device

Development of atmospheric pressure plasma source

Acquiring good manufacturing practice(GMP) Certification(2018)
