

SMARTSYSTEC. Inc.

CEO	Kim Tae Jin	Phone	+82-42-936-5923
E-mail	nav5777@naver.com		
Address	303 IT Venture Town, 35 Tech 9 road Youseng gu Daejeon City		
major business	Sensor signal monitor&lifier, Testing device production, Wired and wireless compact DAQ production.		

<< Supplier of industrial testing equipment, design, SW development and manufacturing services >>

SMARTSYSTEC INC. is a company specializing in designing and manufacturing test devices and signal processors with sensor signal amplification and filter processing technology, and is an engineering company that develops test device operation programs and data analysis processing software and technical support.

Products

Use Compact DAQ in the short distance
Description Operation range in 100m
 WIFI, 8Ch, 1kHz
 Using a built in battery

Use Dual Signal Monitor for High Speed Train
Description Signal Monitor Speed&Additional Signal
 12V Power
 Dual Power&Monitor

Use Door Slam Test&Measurement
Description Door driving for Durability
 BLDC motor control, Tester SW&Tech. support

Technical Capacity

» Design and Manufacturing Tech. of DAQ

Motor control, instrumentation equip. design and sensor amplifier design and manufacture

» SW&Technical Support

Produce GUI programs for operation, monitoring and data analysis on test devices

» Test equipment design and manufacturing tech

Equip. design that meets MIL-STD-810 and DO-160
